## PROVIDENCE TRAINING

The Providence Group consists of a number of companies that are set-up to provide a full spectrum of training and solutions for the intelligence and security industry. Our Providence Training Academy conducts courses ranging from intelligence gathering and analytics through to full kinetic strike and breaching capabilities that help prepare our clients for real world operations.

Providence courses are often bespoke and built by our dedicated training team to suit specific customer requirements and can be delivered at our state of the art facilities in the United Kingdom, Netherlands or at a location of the clients choosing.

Providence instructors are subject matter experts in their given field and are carefully chosen, not just for their extensive operational experience within Military, Government and Law Enforcement agencies, but also for their ability to pass on and relate this specialist knowledge. Drawing from many years of experience as strategic and operational intelligence experts, Providence, and many of our previous customers alike believe this versatile and holistic training team offer a globally unparalleled learning experience in covert intelligence gathering.

Courses and training currently being delivered and on offer within the Providence Training Academy range from 1 day through to multi year training programmes and cover a broad range of training objectives.

Please note that the courses on offer within this document can be made bespoke depending on your particular requirements.
